1. GENERAL INFORMATION

Interpretation, Application, Disclaimer, and other Important Information

These Guidelines are for the information and convenience of Applicants (as defined in section 3.1 herein). They provide an overview of the objectives of the CMF, the manner in which the CMF is administered, and information on typical administrative practices of the CMF. Compliance with these Guidelines is a prerequisite to eligibility for any CMF funding.

The CMF has full discretion in the administration of its programs, and in the application of these Guidelines, to ensure funding is provided to those Projects that contribute to the fulfillment of its mandate. In all questions of interpretation of these Guidelines, the interpretation by the CMF shall prevail.

All Applicants and broadcasters (where relevant) must abide by the Accounting and Reporting Requirements (ARR) of the CMF and follow applicable business policies as created and amended from time to time. Business policies, including the ARR, may be found in Appendix B of these Guidelines (and as specific appendices to Programs in the Experimental Stream), and are also available from the CMF website at www.cmf-fmc.ca. Information included in Appendices A and B is an integral part of these Guidelines.

Projects that receive CMF funding in a given year are subject to the Guidelines and the CMF policies that are in effect for that fiscal year. For greater clarity, changes to CMF Guidelines and/or policies made in a subsequent fiscal year will not be applied retroactively, unless specifically stated. The CMF fiscal year is April 1 to March 31.

Please note: These Guidelines may be changed, or modified as required, without notice. Please consult the CMF website at www.cmf-fmc.ca to receive the latest Guideline news and documentation.

Provision of Documentation

It is the responsibility of the Applicant to ensure the CMF receives all relevant documentation, and to update such documentation and information after a material change. The CMF may request other documentation and information to conduct an assessment and evaluation of the Project and, once assessed, to complete CMF file reviews. For the purposes of Project assessment and evaluation, the CMF reserves the right to rely solely on the written and audiovisual materials initially submitted by the Applicant.

Failure to Comply

If an Applicant fails to comply with these Guidelines, as determined by the CMF, then the CMF may refuse the application, revoke the eligibility status of the Applicant's Project, and may demand repayment of any sums paid to the Applicant.

Misrepresentation

If, at any time, an Applicant, as required by the Guidelines or as requested by the CMF, provides false information or omits material information in connection with an application, the Applicant may suffer serious consequences.

These may include, among other outcomes:

- Loss of eligibility for funding of the current Project
- Loss of eligibility for funding of future productions
- Repayment of any funds already advanced, with interest
- Criminal prosecution, in the case of fraud

These measures may be imposed not only on the Applicant but also on related, associated and affiliated companies and individuals (as determined by the CMF at its sole discretion). Any Applicant receiving approval for funding will be required to sign a legally enforceable agreement, which includes further provisions concerning misrepresentations, defaults, and related matters.

2. HOW THE PROTOTYPING PROGRAM WORKS

2.1 INTRODUCTION

The Prototyping Program allocates funding to Projects at the early stages of building a product to demonstrate its intended functionalities and design. Specifically, this phase is for experimenting, testing and validating different concepts and hypotheses to arrive at a first functional prototype. For clarity, the product will require a full Production phase in order to be published or sold and will not be finished at the end of the Prototyping phase.

The Prototyping Program shall fund Projects through a selective process in which Eligible Projects (see section 3.2) are assessed according to an evaluation grid (see section 2.4).

2.2 NATURE OF FUNDING CONTRIBUTION

Successful Applicants receive funding in the form of a repayable advance.

This advance will be repayable to the CMF according to the conditions described, in part, below.

2.2.1 Repayment of the Prototyping Program Repayable Advance

If the Project which received support through this Program goes into production and the CMF:

- *Does provide production funding* to the Project, the costs awarded through this Program will become part of the Project's production costs, the CMF repayable advance will form part of the production financing, and as such the repayable advance will be converted into a recoupable investment in the production and treated in accordance with the CMF's Experimental Stream business policies.
- *Does not provide production funding* to the Project, the Applicant may have the option to either:
 - repay the entire repayable advance no later than the first day of the start of production of the Project that will be commercialized; or
 - after a formal request by the Applicant and subsequent evaluation and confirmation by the CMF, allow the repayable advance to be converted into a recoupable investment in the production.

2.2.2 Sale, Transfer, or Other Disposition of the Project

Should Project materials or intellectual property which received support in this Program be sold, transferred or otherwise disposed of to an entity unrelated to the applicant(s), the entire CMF contribution must be repaid immediately upon the sale, transfer, or disposition.

2.3 AMOUNT OF FUNDING CONTRIBUTION

2.3.1 CMF Contribution

Maximum Contribution

A single Eligible Project may receive funding from the CMF's Conceptualization, Prototyping and either of its Production Programs either alone or in combination with each other, but in no case will the CMF contribute more than \$1.5 million towards a single Project.

Successful applicants receive funding in an amount appropriate to the needs of the Project and subject to a Maximum Contribution of the lesser of 75% of the Project's Eligible Costs or \$250,000.

2.3.2 Eligible Costs

Eligible Costs are real and verifiable costs set out in the budget for the Project or the final cost report, as applicable (including both related-party and non-related-party costs), plus costs the CMF considers necessary¹, and minus costs that the CMF considers excessive, inflated or unreasonable.

Eligible Costs must be costs directly related to the Project, including but not limited to:

- Research and preparation of content
- Salaries and benefits/wages/contracts for Project team (Project management, business development, coding, design, system infrastructure, content development)
- Technology infrastructure (hardware and software)
- Expenses to put content online, including copyright clearance, documentation, design and development of the prototype, translation costs
- Travel and accommodations
- Project audit fees
- Other technical and administrative expenses
- Marketing and promotion

Core business operations or capital expenditures of the applicants, such as rent, purchase of real estate, and maintenance costs, are not Eligible Costs.

All related-party and capital expenditures must be established in accordance with generally accepted accounting principles and CMF [Accounting and Reporting Requirements](#), and disclosed to the CMF. Projects must be protected in accordance with the CMF [Insurance Policy](#).

Assessment of a Project's Eligible Costs shall be done at the CMF's sole discretion.

¹ Gifts made to Indigenous communities recognized as cultural practice and referenced in the [On-Screen Protocols & Pathways Media Production Guide](#) will be accepted as Eligible Costs.

2.4 EVALUATION GRIDS

The CMF chooses successful Projects in the Prototyping Program according to the following evaluation grid. Please note that the CMF reserves the right to limit how many Projects are awarded funding to a single Applicant.

Assessment Criteria - PROTOTYPING	Weight
<p>Team (17%)</p> <p>Studio</p> <ul style="list-style-type: none"> ▪ Experience and achievements of the studio. ▪ Critical and commercial success of previous Projects, funded or not by the CMF. <p>Personnel</p> <ul style="list-style-type: none"> ▪ Experience and achievements of Project producers and management staff. ▪ Experience and achievements of creative and technical staff. <p>Team Work</p> <ul style="list-style-type: none"> ▪ Degree to which staff expertise is complementary ▪ Cohesion and capacity to work as a team <p>Parity (3%)</p> <p>Personnel</p> <ul style="list-style-type: none"> ▪ 40% of the cumulative Eligible Positions on the Team are held by women. <p>For clarity, "Eligible Positions" shall be defined as Producer, Executive Producer, Director (including Technical Director, Creative Director, Art Director, and Interactive Director), Senior Programmer, Designer, and Project Leader.</p>	<p>20%</p>
<p>Originality Creativity and Advancement</p> <ul style="list-style-type: none"> ▪ Originality, quality and relevance of content and form. ▪ Quality and sophistication of design elements and programming. ▪ Quality and distinctiveness of user experience and interactivity. ▪ Development and/or integration of innovative technologies. 	<p>65%</p>
<p>Financial Viability</p> <ul style="list-style-type: none"> ▪ Budget relevance and financial structure risk. ▪ Applicant's financial stability in relation to the size of the Project. ▪ Risk level assumed by the CMF and the applicant. ▪ Relevance of preliminary revenue model. 	<p>10%</p>
<p>Strategic Positioning and Marketing</p> <p>Market Study</p> <ul style="list-style-type: none"> ▪ Audience analysis ▪ Market analysis ▪ Positioning and competitive advantages 	<p>5%</p>

3. ELIGIBILITY FOR FUNDING

3.1 ELIGIBLE APPLICANTS

An eligible Applicant to the CMF is either:

1) A company that

- a) Is for-profit: i.e. a taxable Canadian corporation, within the meaning of the *Income Tax Act* (Canada);

Note: Not-for-profit corporations are not eligible Applicants to the CMF, however coproductions or partnerships between for-profit and not-for-profit corporations may be allowed where the not-for-profit corporation holds a minority interest in the Project; in such a case the CMF will only contribute to the Eligible Costs related to the for-profit corporation.

- b) Is Canadian-controlled as determined for the purposes of sections 26 to 28 of the *Investment Canada Act*.

- c) Has its head office based in Canada.

- d) Is in good standing with all applicable talent and industry associations and guilds.

or

2) A Canadian Broadcaster²

An eligible Applicant must own and control all the rights necessary to produce and exploit the Project that is the subject of the application at every stage of the Project's life-cycle, including Prototyping; entities that provide services but do not own the applicable rights are not eligible to be applicants to the CMF.

Note: For the purposes of these Guidelines, the term Applicant includes all coapplicants, and/or all related, associated, affiliated or parent companies and/or individuals (as determined by the CMF at its sole discretion), as applicable.

3.2 ELIGIBLE PROJECTS

The Experimental Stream's Prototyping Program seeks to support Canadian interactive digital media content and application software.

²Any of the following will be considered a "Canadian Broadcaster":

- a. A Canadian programming undertaking, public or private, licensed to operate by the Canadian Radio-television and Telecommunications Commission (CRTC) (including exempt broadcasters regulated by the CRTC via *Broadcasting Order CRTC 2015-88*);
- b. An online service owned, controlled and operated by a Canadian CRTC-licensed programming undertaking;
- c. An online service owned, controlled and operated by a Canadian broadcasting distribution undertaking ("BDU"), licensed to operate by the CRTC; and
- d. CRTC-licensed VOD services.

3.2.1 Canadian Elements

An Eligible Project must meet the following criteria:

- a) Its underlying rights are owned, and significantly and meaningfully developed, by Canadians.
- b) It is produced in Canada, with at least 75% of its Eligible Costs being Canadian costs for Prototyping and Production; and at least 50% of its Eligible Costs being Canadian costs for Marketing.
- c) It is, and remains throughout its production, under Canadian ownership and Canadian executive, creative, and financial control.

Digital media coproductions are eligible if they comply with the [Framework for international digital media coproduction](#).

3.2.2 Types of Content/Applications

An Eligible Project must be digital media content and/or application software that is interactive and is connected to the Canadian cultural sector.

3.2.2.1 Digital Media Content/Applications

The Prototyping Program will fund a variety of innovative, interactive content/applications, including but not limited to:

- Web applications
- Mobile applications
- Software applications with a connection to the Canadian cultural sector
- Videogames, whether for PC, console, handheld console, mobile, or other platforms
- Interactive/Immersive Projects that contain audio³ or audiovisual content

The CMF does not wish to unduly limit the types of content or applications that it funds, and applicants with innovative Project proposals are encouraged to apply. The following, however, are types of Projects that are ineligible for the Experimental Program:

- Products with a specific corporate, industrial or mainly promotional focus
- Curriculum-based products (including but not limited to e-learning applications, software and technologies)
- Projects which essentially serve the Applicant's current activities, including obtaining contracts or orders from other businesses
- Partial or split Projects (and Project portions) that cannot be independently exploited
- Project porting or Project adaptation from one platform to another
- Catalogues or compilations of repurposed material, presented without benefit of new, value-added original content
- System software
- Pure research and development, such as Projects or activities that would be eligible for the Federal Scientific Research and Experimental Development Tax Incentive Program
- Casino type games
- Gamification of non-cultural content (e.g., scientific, research, medical, etc.)

³ Only audio XR projects with a deep immersive experience will be considered for eligibility, linear audio projects (e.g., podcasts) will not.

3.2.2.2 Interactivity

Eligible Projects in the Prototyping Program must be interactive. Interactivity is defined as a meaningful participatory experience between the user and a product/technology (including but not limited to immersive technologies that engage and stimulate the user's senses to create perceptually-real sensations), or the user and other users as enabled by the product/technology. Projects that use the internet or mobile platforms to distribute linear content without significant interactive feature(s) are not eligible.

In determining whether a Project is "interactive," the CMF will look at the Project as a whole. As such, an Eligible Project may contain both interactive and linear components, as long as the overall user experience involves a significant degree of interactivity.

3.2.3 Miscellaneous Requirements

- a) An Eligible Project cannot contain elements of excessive violence, sexual violence, or sexual exploitation or elements which are obscene, indecent or child pornography within the meaning of the Criminal Code (as amended from time to time), or libelous or in any other way unlawful.
- b) The CMF encourages all Applicants to respect the guiding principles and best practices set out in the [On-Screen Protocols & Pathways Media Production Guide](#).
